

## Easier form submission through your EMR

eForms are digital forms that can be completed and submitted from the convenience of an EMR. Rather than manually completing and faxing health-related paper or digitized forms to various organizations, clinicians can complete and submit them electronically from their EMRs.

As the provincial, scalable electronic solution for health-related forms, eForms is a first step to automate the cumbersome form-filling process, and eliminate faxes.

Clinicians can seamlessly access 32 forms from the Ontario Ministry of Transportation (16 each for English and French), with more to come.

### With access to eForms, you can:

- Complete digital health forms directly from your EMR
- Make sure forms are complete and legible, avoiding delays for patients
- Protect patient data by submitting forms securely and reliably
- Ensure the most up-to-date forms are always used
- Submit forms without a required patient signature

### eForms vs. digitized forms in your EMR

Did you know that sending digitized forms through your EMR is the same as sending a fax?

The forms currently built within your EMR are converted to, and sent, as faxes. Although it feels integrated, it really isn't.

The eForm is not a fax, but allows you to securely send completed forms as data, bypassing the fax and ensuring accuracy.

### Streamline the Form-Filling Process

Unlike the digitized forms in an EMR, which may not be up to date, eForms are always up to date. They also guide you as you fill them out so you don't miss any fields.

As the data is sent directly to an organization, you no longer have to fax paper or digital forms, only to have them be sent back due to being outdated versions or because of errors or missing information.

### Get access to eForms!

Learn more and get connected to eForms

eForms is available today to Accuro® EMR, Avaros EMR, EMR Advantage, YES EMR, and YMS EMR users. More OMD-certified EMR vendors will be offering it in the future.

For more information or to request eForms, contact OMD at [support@ontariomd.com](mailto:support@ontariomd.com).
